For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

A tractor repair manual written for the experienced mechanic by professionals in an easy-to-use format , including numerous photos, illustrations and exploded views.

Dr Latib has compiled a detailed atlas of the most effective and commonly used Hijama points from his more than 20 years of practice in the field of Hijama and Bloodletting. This manual is a necessity for any practitioner interested in practicing Hijama efficiently.

Best-selling author and database expert with more than 25 years of experience modeling application and enterprise data, Dr. Michael Blaha provides tried and tested data model patterns, to help readers avoid common modeling mistakes and unnecessary frustration on their way to building effective data models. Unlike the typical methodology book, Patterns of Data Modeling provides advanced techniques for those who have mastered the basics. Recognizing that database representation sets the path for software, determines its flexibility, affects its quality, and influences whether it succeeds or fails, the text focuses on databases rather than programming. It is one of the first books to apply the popular patterns perspective to database systems and data models. It offers practical advice on the core aspects of applications and provides authoritative coverage of mathematical templates, antipatterns, archetypes, identity, canonical models, and relational database design.

Abstract: This pamphlet, written for the homeowner in the midwestern United States, gives the EPA safety recommendations for private lawn care. Common and trade names for pesticides and herbicides are cross referenced. Advice for selection of a lawn care service is included.
