Chevrolet HHR Check Engine Light On Problems

Here are some of the most typical problems that can make your HHR's reduced engine power warning come on: Throttle Body. This is one of the most common reasons the reduced engine power light comes on. If the ECU isn't getting the proper voltage response from the throttle body, it can't be sure of how much it'll really accelerate your HHR from the gas pedal input. At this point, it turns on the reduced engine power mode in order to keep the vehicle from running away from you. O2 Sensors
