Russian state-owned Rostec posted a tweet claiming that the Checkmate, will have the longest range and autonomy within the single-engine fighter category. Likew ...

Checkmate, the single-engine fighter with greater range and autonomy

Stratview Research announces the launch of a new market research report on Aircraft Electrical Systems Market by System Type ...

Aircraft Electrical Systems Market Size, Impacted by COVID-19, to Reach US\$ 3.9 Billion in 2026, Says Stratview Research

MRInsights.biz has presented a new market study on Global Small Aircraft Engines Market Growth 2021-2027 which delivers an executive-level market analysis that will help clients to build strategies to ...

Global Small Aircraft Engines Market 2021 (COVID-19 UPDATE) Future Challenges, Growth Statistics and Forecast to 2027

United recently became the largest airline to invest in zero-emission, hydrogen-electric engines for regional aircraft, the latest move toward achieving ...

United Becomes Largest Airline to Invest in Zero-Emission Engines for Regional Aircraft

Due to the performance required by Otto, the company selected the RED A03 powerplant to ensure optimum fuel efficiency and aircraft performance. The RED A03 engine already has impressive form and is ...

Sustainable Aviation Fuel Tests for RED Aircraft RED A03 Engine Completed by Otto Aviation

United Airlines has become the largest airline to invest in zero-emission, hydrogen-electric engines for regional aircraft, the latest move toward achieving its goal to be 100% green by reducing its ...

United invests in zero-emission engines for regional aircraft

The agency is now working to develop highly efficient engines for future single-aisle commercial aircraft under its Hybrid Thermally Efficient Core (HyTEC) project at NASA ' s Glenn Research Center. The ...

NASA, US industry accelerate advancement of small core aircraft engines

Stratview Research has published a new market research report titled Ceramic Matrix Composites CMCs Market in Aircraft Engines According to the report the Ceramic Matrix Composites CMCs Market in ...

Covid-19 Impact on Ceramic Matrix Composites (CMCs) Market in Aircraft Engines to Witness Expansion During 2020-2025

United Airlines operated Flight 826 between Tokyo and Honolulu onboard a Boeing 747-100 aircraft, registration N4723U. The plane would be retired by the end of that service (which had an accident ...

Why An Undamaged United Boeing 747 Was Written Off 27 Years Ago

which is being developed at the Irkut plant (part of United Aircraft Corporation controlled by Rostec). At the last Dubai Airshow 2021, Irkut also introduced the MC-21-310, a version with Russian ...

Certification flight program of new Russian MC-21 aircraft is completed

Britain said on Wednesday it has signed an agreement with Japan to develop fighter aircraft engine technologies.

UK, Japan to co-operate on fighter jet engine technology

The Engineer spoke to leading players in the burgeoning eVTOL aircraft market for their insights into developing electric flight for passenger services.

The Engineer Q&A: Rise of the eVTOL aircraft

A British Airways plane with 200 passengers on board survived a mid-air scare after being hit with a block of ice that left the windscreen cracked, Times Now reported. The Boeing 777's two-inch-thick ...

Ice block that fell from a plane cracks windscreen of another aircraft flying 1,000 ft below

U.S. start-up company Pyka has developed the world ' s first commercially available electric and autonomous aircraft. Together with Embraer it will make the ...

Embraer and Pyka partner in autonomous electric aircraft for agriculture

A light aircraft has made an emergency landing in Dagolla, Katana in Negombo a short while ago, stated the Katana Police. The flight -Cessna 172- was a private flight headed to Koggala from Sigiriya.

Another light aircraft makes an emergency landing (Video)

Even though the Navy had no enlisted pilots, Richard Marcinko had his elite SEAL 'shooters' trained as pilots to make his team self-reliant.

Enlisted SEAL Team Six Operators Piloted Leased Aircraft According To Founder Richard Marcinko

In a new agreement revealed today (Dec 22), the Electric Aviation Group and the UK ' s University of Nottingham (UoN) will develop an innovative hydrogen-electric hybrid propulsion system for the ...

EAG and the University of Nottingham to collaborate on the development of hydrogen-electric propulsion engines for aircraft

United Airlines announced an investment this week in ZeroAvia ' s hydrogen-electric engines. ZeroAvia has secured \$35 million in this latest round of investments from both United and Alaska Air Group.

ZeroAvia Raises \$35 Million from United and Alaska Air Group to Provide Hydrogen-Electric Engines for Large Aircraft

Hydrogen-electric engines are one of the most promising paths to zero-emission air travel for smaller aircraft, and this investment will keep United out in front on this important emerging technology, ...
