This is volume 5 in the No Man's Land story arc in the Batman universe. I highly recommend getting this if you have the OLD versions and need the 5th volume to complete your collection. The story wraps up in this graphic novel and I find this arc to be rather enjoyable. I would also recommend the novelization of this which you can also find on Amazon.

Batman: No Man's Land, Vol. 1 by Bob Gale

This volume features a more disparate group of stories than Batman: No Man's Land, Vol. 1. Some of the stories skip around in the chronology of the events of Cataclysm and No Man's Land. There's still lots to like though. Again, Batman is used best when he's not the main focus of the story.
