Data Structures and Other Objects Using C++ takes a gentle approach to the data structures course in C++. Providing an early, self-contained review of object-oriented programming and C++, this text gives students a firm grasp of key concepts and allows those experienced in another language to adjust easily. Flexible by design, professors have the option of emphasizing object-

oriented programming,
covering recursion and
sorting early, or
accelerating the pace of the
course. Finally, a solid
foundation in building and
using abstract data types is
also provided, along with an
assortment of advanced
topics such as B-trees for
project building and graphs.

The author have used

We have the capability to win in the Middle East. The only question is whether we have the resolve. At the start of the Civil War, many Northerners anticipated a quick victory. The New York Times predicted victory in 30 days. By 1863, the war was being denounced in Congress as an utter, disastrous, and most bloody

failure, while President
Lincoln and his
administration were despised
for their incompetence.
"There never was such a
shambling, half-and-half set
of incapables collected in
one government, before or
since the world began," a
Liberal senator said in
disgust. To-day President
Lincoln is considered to be
the best of all our
Presidents. Just as then, we
have to choose between
resolve and retreat, with no
guarantees about how it will
end. All we can be sure of
is that the stakes once
again are liberty and
decency versus tyranny and
terror. We are fighting an

enemy that feeds on weakness
and expects us to lose
heart. The world for
generations to come will
remember if we flinch. The
aggressive measures the
President took after
9/11/2001, have kept us
safe. As a consequence,
Liberals have the luxury and
freedom of being able to
hate him. History will see
it differently. Liberals see
a monster instead of a
political opponent and
multilayered issues as evil.
