Blended with the intricacies of European and Urdu traditional cultures, the poetic works of Agha Shahid Ali had the power to transform the ordinary into something extraordinary. *The Veiled Suite: The Collected Poems* is an anthology of his life works that spans to thirty years of his career as a poet and six successful volumes that he had the chance to publish during his lifetime. This book opens with his last poetic composition *The Veiled Suite: The Collected Poems*, a canzone, which was published posthumously. He had penned this poem a year prior to his death. This book contains some of his famous poems like *Postcard from Kashmir*, *A Lost Memory of Delhi*, *Snowmen*, *Cracked Portraits*, *Story of a Silence*, *Poets on Bathroom Walls*, *Now No Longer Little*, *Medusa*, *The Blessed Word: A prologue*, *Some Visions of the World Cashmere*, *New Delhi Airport*, *I have Loved*, and many more remarkable poems. From his early works to his mature translations of Ghazals, the readers can evidently see his progression from his directly descriptive poetic works to the dynamic and stratified compositions of his later collections in this book. This is the underlying factor that adds to make *The Veiled Suite: The Collected Poems*, the ultimate book for his fans.

A New York Review Books Original *Hav* is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of *Hav*, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century *Hav* is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.
