theory and practice of the classical dynamics  
topic of vibration analysis. The book is  
organized as follows: The first few chapters  
develop the topic of single degree of  
freedom vibration in terms first of free  
response, then response to harmonic  
excitation, followed by general forced  
response.

1.82 A bar of negligible mass fixed with a tip mass forms part of a machine used to punch holes in a sheet of metal as it passes past the fixture as illustrated in Figure P1.82. The impact to the mass and bar fixture causes the bar to vibrate and the speed of the process
