ISO 14405-1:2016 defines tolerances of linear sizes for the following: - a + and/or ? limit deviation (e.g. 0/?0,019); - an upper limit of size (ULS) and/or lower limit of size (LLS) (e.g. 15,2 max., 12 min., or 30,2/30,181); - an ISO tolerance class code in accordance with ISO 286?1 (e.g. 10 h6); with or without modifiers.

and tolerancing. It establishes the default specification operator - thus the default drawing indication - for linear size and provides options to modify this default specification operator.

*ISO 14405-1 - DIMENSIONAL  
TOLERANCING OF LINEAR SIZES  
/ Q ...*

ISO 14405-2:2011 illustrates the use of geometrical tolerancing for dimensions that are not linear sizes to avoid the ambiguity that the use of  $\pm$  tolerances on these dimensions causes. Both linear and angular dimensions, except size of features of size, are

# Read Book Iso 14405 Gps

covered. Dimensional tolerancing can be indicated by  $\pm$  tolerancing or geometrical tolerancing.

*ISO - ISO 14405-2:2011 - Geometrical product ...*  
ISO 14405-1:2010 defines tolerances of linear sizes when there is a + and/or - limit deviation, or when there is an upper limit of size and/or lower limit of size; with an ISO size tolerance code in accordance with ISO 286-1, with or without modifiers. ISO 14405-1:2010 provides a set of tools to express several types of size characteristics.

Geometrical product ...*

This part of ISO 14405 is a geometrical product specification (GPS) standard and is to be regarded as a general GPS standard (see ISO 14638). It influences chain links A to C of the chain of standards on size. The ISO GPS matrix model given in ISO 14638 gives an overview of the ISO GPS system of which this part of ISO 14405 is a part.

specifications ...*

ISO 14405-1 is the first standard to really address the whole issue of size properly, and gives a thorough, and long overdue, breakdown of the different ways in which size can be defined. It also provides tools which enable size to be defined in different ways on a specification when necessary.

*ISO 8015 & ISO 14405 - Iain
