Rather like an automatic retune, the procedure for doing a manual retune varies by manufacturer so if you're unsure what buttons to press, check out your instruction manual or download one from your TV manufacturers website. If you've found how to do an automatic retune in your TV settings menu, then manual retune should normally be nearby.

Step 1, Make sure you have the TV's original remote. While some non-LG, third-party or universal remotes can be used to access your LG TV's service menu, you'll have the greatest chance of success if you use the remote that came with your TV. Step 2, Select a TV channel. Using the INPUT button on your remote to select the TV as the input source, then select any TV channel. You may not be able to access the service menu

By Edmund Lukavics. When you
purchase and set up a new LG
TV, you must program
channels into the television
set. Programming channels
into the television allows
you to access those channels
using your remote control or
the manual controls on the
television set. There are
two ways of programming
channels into your LG TV;
you can choose to have the
television set automatically
detect and program channels,
