The Thin Lens Equation. These three quantities f , o , i ,

Online Library

Simple Lens

$1/o$, and $1/f$ are related by the thin lens equation $1/o + 1/i = 1/f$

Looking at our previous ray tracings it is apparent that the image and the object do not have to be the same size. This leads us to define the magnification m .

Online Library

Simple Lens

We define m as the ratio of the height of the image to the height of the object.
