Rachel Dennehy had a crazy thought. If she could just start over somewhere else, she could forget about her sad and tragic past and all the ghosts that chased her. When an email landed in her inbox, to tutor a difficult student whose father just happened to be the CEO of one of the biggest companies in the nation, the apple was a bit too enticing for Rachel to refuse. She moves from Texas to Beverly Hills, where she is tasked with turning around her wealthy pupil's bad attitude. It is a bad attitude that stems almost entirely from his parents' ugly divorce and even uglier custody battle. That her new boss Andrew, or Drew, Fullerton is one of the handsomest and most eligible bachelors in the world means nothing to Rachel. She has absolutely no plans to ever marry or have kids of her own. Her priority is teaching nine-year-old Jonathan, who needs her guidance and her direction and... most importantly... her friendship. Drew's brother, Alex, however, assumes otherwise. He basically accuses her of being a gold-digging opportunist upon their first meeting. This sets the two immediately at odds, though they both have young Jonathan's best interest at heart. Alex believes that Rachel is a "ringer," a wholesome alternative to edge Jonathan's socialite mother out of the running for custody, since she left Drew after her own salacious affair with a younger man. He wastes no time in telling Rachel that as long as she stays in her job, she will keep Jonathan from his real mother, and that is the driving force behind Drew's interest. Unfortunately the more he tries to warn her away from Drew, the closer he ultimately propels her toward her charming boss. Drew never questions her motivation or her presence because Jonathan thrives under her tutelage, and Drew is beguiled by her no-nonsense attitude that challenges him from the start. Rachel navigates these choppy waters solely to protect Jonathan. She sees the adults in the family as self-serving; most of whom are far more interested in hurting each other than taking care of this fragile, vulnerable boy. Her heart traps her into this sticky web, despite her own history of loss and betrayal. How long will she last? More importantly, what will she be required to give to save these Fullerton men who continually tug her in three different directions? The saga begins with the first book, titled "Enticed," due to release in early 2014. Author Ginger Voight returns to the dream-making landscape of Los Angeles, in a new tale that throws back the curtain on the dangerous power, appeal and excess of the privileged. Only by the time this tale is done, one principle character will pay the ultimate price as they all race toward that elusive happily ever after.

This unique reference book consists of tables, charts and formulas, compiled as quick to find, labour-saving aids for machine design engineers, maintenance engineers and managers of safe machinery.

In this book, readers will discover how to recognize sadness in themselves and others, how to best respond to it, and how to communicate about these feelings. Social and emotional learning (SEL) concepts support growth mindset throughout, while Try This! and Grow with Goals activities at the end of the book further reinforce the content. Vibrant, full-color photos and carefully leveled text engage young readers as they learn more about emotions. Also includes sidebars, a table of contents, glossary, index, and tips for educators and caregivers. Feeling Sad is part of Jump!'s Minding Emotions series.

The War between the States' is the term used for the American Civil War throughout much of the South even today. Many on both sides – not just the South – felt that they were serving their states as much, if not more, than their central governments. Many of the states agreed; the state governments raising their own units, commissioning their officers, and supplying their men. Indeed, many of the units that fought the Civil War were supplied in large part by their own states rather than by the central government's quartermasters. Philip Katcher's fascinating text explores the uniforms of 32 states; from Alabama to Wisconsin.

Stuart just wanted his father to love him, but he was made to believe he was too naughty to be loved. Finally David Howarth was sent to prison for abusing Stuart's young sisters. Nobody knew the truth about Stuart's abuse until one fateful day when his father tried it again and Stuart fought back in the only way he knew how.
