Over 150 pages in full color!

Traxxas T Maxx Manual

This manual, Technical Manual TM 3-34.22 (FM 3-34.343) / MCRP 3-17.1B Military Nonstandard Fixed Bridging, provides essential technical information on nonstandard fixed bridges for engineer staff officers. It is the doctrinal source of information for the United States (US) Army on the North Atlantic Treaty Organization (NATO) Bridge and Vehicle Classification System. This manual also provides various methods for classifying and designing nonstandard fixed bridges in military theaters of operation (TOs). This manual provides detailed technical data on the classification (analysis) and design of bridges. It is NOT intended to replace civilian classification or analysis codes and procedures and should NOT be used for civilian construction or classification. Engineer officers should note that the methods shown in this manual are for conservative classification and design. Qualified engineers also might use appropriate civilian methods for military classification and design. Appendix A contains an English-to-metric measurement conversion chart. TM 3-34.22 applies to the Active Army, Army National Guard/Army National Guard of the United States, and United States Army Reserve unless otherwise stated. The proponent for this publication is HQ TRADOC, US Army Engineer School (USAES), Directorate of Training. The provisions of this publication are the subject of the following international standardization agreements (STANAGs) and Quadripartite STANAG (QSTAG): STANAG 2010 Engineer (ENGR) (Edition 5), STANAG 2021 ENGR (Edition 5), STANAG 2101 Land Force Tactical Doctrine and Operational Procedures (TOP) (Edition 10), and QSTAG 180 (Edition 4). PART ONE BASIC CONSIDERATIONS Chapter 1 BACKGROUND INFORMATION Chapter 2 RECONNAISSANCE AND PRELIMINARY INVESTIGATIONS PART TWO CLASSIFICATION, REINFORCEMENT AND REPAIR, AND POSTING Chapter 3 CLASSIFICATION Chapter 4 REINFORCEMENT AND REPAIR Chapter 5 POSTING PART THREE DESIGN Chapter 6 BRIDGE SUPERSTRUCTURES Chapter 7 SUBSTRUCTURE DESIGN Chapter 8 SUSPENSION-BRIDGE DESIGN Chapter 9 CONNECTIONS Chapter 10 CONSTRUCTION Chapter 11 INSPECTION AND MAINTENANCE Chapter 12 BRIDGING IN ARCTIC AND SUB ARCTIC ENVIRONMENTS Appendix A CONVERSION CHARTS Appendix B VEHICLE CLASSIFICATION Appendix C TIMBER PROPERTIES Appendix D STEEL PROPERTIES Appendix E STRUCTURAL MECHANICS Appendix F CLASSIFICATION EXAMPLES Appendix G CONCRETE PROPERTIES Appendix H SOIL PROPERTIES Appendix I SUPERSTRUCTURE EXAMPLES

Readers interested in modeling a realistic railroad of the 1950s will love this book based on a special 2005 issue of Model Railroader. This book provides historical information and photos covering locomotives, passenger equipment, freight cars, and trackside details. Featured layouts in a variety of scales show how to model Chicagos Dearborn Station, move coal in the Appalachians, carry produce, and recreate Los Angeles of the 1950s.

For the past four decades there have existed a variety of debates concerning the creation of the monster truck. Most of the arguments are flawed, as they are largely based on the fundamental presumption that the monster truck is a static concept in terms of both construction and purpose. This book delineates how the monster truck is not a singular creation but instead the sum of many technologies orchestrated in a manner to achieve purposes that, like the vehicles, have evolved over time. Author Marty Garza takes the reader on a journey through various phases of monster truck development and occasionally provides evidence of the existence of variations of the concept that predate the establishment of the term. Monster truck fans will be provided with not only the nuts and bolts of individual technological developments but also the context in which they were created. Monster Trucksdepicts unique images that are true to the very nature of the developments themselves. The imagery may be dated, but it's vitally important for the preservation of the heritage of the monster truck industry and serves to recognize those individuals whose contributions have been largely overlooked though they played a significant role in achieving the spectacular level of technology observed today.

Strange Recompense by Catherine Airlie released on Nov 24, 1982 is available now for purchase.

Modern Mandarin Chinese Grammar Workbook is a book of exercises and language tasks for all learners of Mandarin Chinese. Divided into two sections, the Workbook initially provides exercises based on essential grammatical structures, and moves on to practice everyday functions such as making introductions, apologizing and expressing needs. With an extensive answer key at the back to enable students to check on their progress, main features include: exercises at various levels of challenge for a broad range of learners cross-referencing to the related Modern Mandarin Chinese Grammar a comprehensive index to exercises alphabetically arranged in terms of structures, functions, and key Chinese structure vocabulary. This second edition also offers a revised and expanded selection of exercises including new task-based exercises. Modern Mandarin Chinese Grammar Workbook is ideal for all learners of Mandarin Chinese, from beginner to intermediate and advanced students. It can be used both independently and alongside the Modern Mandarin Chinese Grammar (978-0-415-82714-0), which is also published by Routledge.

A seasoned analyst uses a case study approach to link conceptual debates about the construction of knowledge to the practical concerns of policy analysts.

I originally developed this book for my networking students at the community college where I teach and it is at their urging I have decided to publish this book. Since then, thousands of copies have gone out and the book has been adopted at several other colleges and schools. My goal was to produce a book that was targeted to a single topic (IPv4 subnetting) that was inexpensive, and was easy to read (less than 100 pages). I also wrote the book to be used from time to time; not relegated to a shelf where it would gather dust. My students have loved the book over the years and I know you will too.

Paintings of outdoor scenes accompanied by prayers and quotations about prayer from various authors.
