C16XE was later replaced with X16XE Ecotec engine. The X16XE came in the Corsa and Tigras up until 2000 and in the Astra and Zafira until 2005. For high spec engines we prefer to use the 1600cc cylinder heads with the triangular ports that are found on the X16XEL engine from the Astra/Zafira from 1998 to 2005.

This is a step by step guide to removing the TPS on the x14xe/x16xe engine. On any other engine this would be a very simple task but not on these engines. Introduction The TPS informs the ECU of how much throttle is being applied at any given time, allowing it to adjust fuel mixture more quickly. It also tells the ECU when to go into idle control mode. A lot of idling problems can be linked ...
