Sound Synthesis and Sampling' provides a comprehensive introduction to the underlying principles and practical techniques applied to both commercial and research sound synthesizers. This new edition has been updated throughout to reflect current needs and practices- revised and placed in a modern context, providing a guide to the theory of sound and sampling in the context of software and hardware that enables sound making. For the revised edition emphasis is on expanding explanations of software and computers, new sections include techniques for making sound physically, sections within analog and digital electronics. Martin Russ is well known and the book praised for its highly readable and non-mathematical approach making the subject accessible to readers starting out on computer music courses or those working in a studio.

The Tree of Ecstasy and Unbearable Sadness is a groundbreaking, large-scale multi-modal project weaving together the worlds of literature, music and visual art in the poignant story of one boy's journey into mental illness. Readers and listeners are offered a mesmerising visual and auditory tour de force about beauty and resilience, society and belief, that at its heart expresses hope for a greater understanding and embracing of difference. The narrative unfolds around the metaphor of a tree, growing within the boy, whose flower is ecstasy and whose fruit is sadness. This luminous, multi-faceted work is inspired by the experiences of its award-winning creator, Matt Otley, who has lived with bipolar disorder all his life and been hospitalised on numerous occasions in mental health facilities. Having personally experienced the prejudices and challenges that come from suffering a mental illness, Matt's aim is to offer a sensory insight through words, music and images into the experiences of those who suffer from such debilitating illnesses, particularly psychosis. A masterful allegorical tale for the 21st century.
